

## ATTRIX5

We are excited to introduce the Lumenier AttriX5 Tactical FPV drone. This cutting-edge 5" aerial platform is engineered for one-way tactical payload delivery when precision and reliability are essential to mission success. The AttriX5 has a payload capacity of 2.2 lbs (1 kg) and exceeds all standards for target area penetration.

### Key Features:

- **Unparalleled Range:** The AttriX5 features a compact design and rugged construction optimized for deployments in austere environments, where stealth and lethality are vital to mission success.
- **Multi-Frequency:** The AttriX5 is capable of operating on multiple frequencies to increase range and survivability in EW-contested environments.
- **Mission-Adaptable:** Primarily configured for one-way missions, the AttriX5 can be equipped with various payload options.
