

ATTRIX7

We are excited to introduce the Lumenier NightHawk AttriX7 Tactical FPV drone. This cutting-edge 7" aerial platform is engineered for one-way tactical payload delivery when precision and reliability are essential to mission success. The AttriX7 has a payload capacity of 3.96 lbs (1.8 kg) and exceeds all standards for target area penetration.

Key Features:

- **Unparalleled Range:** The AttriX7 features a compact design and rugged construction optimized for deployments in austere environments, where stealth and lethality are vital to mission success.
- **Multi-Frequency:** The AttriX7 is capable of operating on multiple frequencies, increasing range and survivability in EW-contested environments.
- **Mission-Adaptable:** Primarily configured for one-way missions, the AttriX7 can be equipped with various payload options.
